

WORKING HARD FOR WORKING BRITONS

Under the Coalition government, cost of living has increased to unprecedented levels. Energy companies having profits almost 8 times higher than comparable countries like Germany and France, Tories said this was a necessity and did absolutely nothing on it. Tories increased the VAT, when they said they wouldn't. Tories handed effective pay cuts to our workers and exploitative zero hours contracts soared under their leadership. Under Tories big businesses got tax cuts exploited workers and consumers while did nothing to protect them.

Under Labour, we will take on energy companies and tell them it's not acceptable to have record profits by overcharging consumers. We will ban exploitative parts of zero hours contracts. We will freeze the VAT, we will introduce a living wage. We will give our public workers the pay increases that they deserve. Ensure our soldiers will get the increases they deserve every single time. Put 20000 police officers in the streets in year 1 and we will do all of this while reducing the deficit. Because we will ask the rich to contribute more, not our most vulnerable.

WORKING HARD FOR WORKING BRITONS

Labour is the only party who will freeze VAT, raise the minimum wage, invest in the NHS, our schools and enact a credible economic plan.

The Conservatives raised VAT after promising not to, and have promised it again – Why trust them? They've cut the NHS and Defence.

The Liberal Democrats: No VAT rises, yet they voted for it. No tuition fees rise, yet they voted for it. No promise is too big for them to break.

Farage collects £500,000 a year, he spent £65,000 on an assistant and claimed £2million in expenses. All EU cash, he is the 'establishment'.

Vote Labour on April 10th
